

Confetti Popper

You will need the following supplies:

Cardboard tube

Balloon

Sticky tape

Scissors

Optional things for decoration:

Paper, markers or crayons, stickers

1. Have a grown-up help you tie a knot in the neck of the uninflated balloon.
2. Carefully cut off the round top of the balloon.
3. Stretch the newly cut open end of the balloon over one end of the cardboard tube.
4. Tape the balloon to the cardboard tube so that it stays put.
5. Decorate your tube however you like best! You can use paper cutouts, markers, crayons, or stickers.
6. Cut up some scrap paper into small pieces, and then put them inside the cardboard tube.
7. Hold the tube in one hand and pull down on the end of the balloon with the other. Let go of the balloon and watch your confetti fly!
